Suspension Seating suitable for many types of Marine Craft

The KAB Seating range of Suspension Seats has been designed primarily for Off-Highway vehicles such as Excavators and Dumptrucks.

Due to the demanding environments in which these types of vehicles operate, the seats are manufactured to be extremely robust, durable and most importantly ergonomically comfortable for the occupant... requirements equally important for Marine craft.

KAB Seating have successfully supplied seats to the Marine sector for over 30 years. The matrix below details the most popular seats supplied.

XH2/U5

559 ACS

KAB Air Comfort System (ACS)

Simply press a button and the electrical pump will feed air to support the area of your preference.
